Buying Solutions awards Telecare, Telehealth and Telecoaching framework agreement to TeleMedCare Limited

London, UK 12 August 2010

TeleMedCare Limited announced today that the company has been awarded an Assistive Technologies framework agreement by Buying Solutions.

Buying Solutions is the national procurement partner for all UK public services, and is part of the Efficiency and Reform Group within the Cabinet Office.

Its role is to deliver best value for customers in central government and the wider public sector through the efficient procurement and supply of essential goods and services.

Buying Solutions saves its customers time, money and effort by providing access to trusted, compliant, and sustainable procurement solutions, which deliver measurable savings, value for money and peace of mind.

The Telecare framework agreement is for two years, (with an option of two further one year extensions) and covers the purchase, installation, maintenance, monitoring, coaching and management of its award winning telecare and telehealth e-health solutions to the public sector markets including government departments, NHS Trusts and other public bodies.

The framework agreement facilitates the buying process across a broad range of services and products for UK Public Sector contracting authorities saving valuable time, resources and avoiding duplication and lengthy procurement processes, which in turn all provide benefit to the UK taxpayer.

Saneth Wijayaratna, Head of TeleMedCare Sales & Marketing in the UK said: "We are pleased to have been awarded a Buying Solutions framework agreement for four Lots covering Telehealth products, Telehealth services, Telecoaching products and services, and Managed Services. As an independent provider of leading e-health technology products and services, through this framework agreement, we will be better enabled to provide public organisations with integrated vital sign telecare remote monitoring products with diagnostic capability and, consulting and support solutions across the UK with full internet video, voice and text support.

Saneth Wijayaratna added, "Award of the Buying Solutions framework agreement provides for Public Sector organisations to more readily access our leading technologies, products and services and to call on our expertise with the assurance that our product installations and support will be carried out efficiently and at the highest quality level. "

Notes to Editors

Telemedcare Ltd is a leading e-health technology solutions provider. TeleMedCare products and services especially support people with long term or chronic conditions such as, diabetes, lung disease and heart conditions, in their own homes or in community/nursing care settings. TeleMedCare medical systems monitor physiological signs (such as ECG, SP02, blood pressure and lung function) integrated with medication reminders and customized questionnaires to deliver self-care management optimization and potentially better identification and earlier intervention of imminent threats. All TeleMedCare data collected is securely transferred via the internet to a central point for easy access by authorized clinicians, medical practitioners and specialists.
